

Micathermic Heater JCRC2215

- Fast and efficient heat with 5 mica panels.
- High efficiency with lower energy consumption.
- Ideal for rooms from 15 to 25 m²
- Heat without combustion. Does not consume oxygen.
- Two power levels: 1,300 and 2,200 W
- Adjustable thermostat.
- Operation indicator light.
- Tip-over and overheat protection system.
- Lightweight and with integrated handles for easy transport.
- Dimensions: 53.1 x 24.1 x 69.3 cm
- Voltage: 230 V
